Are you in college or planning to attend in the near future? If so, then be sure to stop by your credit union first to find out about our NEW student loan program!

At NPCCU, we know that getting a college degree is a worthwhile goal. In fact, college graduates make an average of one million dollars more than those without col-

lege degrees during their working lives, according to www.studentloanfacts.org.

But the cost of a college education can be overwhelming for both students and parents, and the costs continue to increase. That is why NPCCU offers Federal Family Education Loan Program (FFELP)

loans. If you or another family member is attending or plans to attend a university, technical college, or any specialized training program, we can help you with the funding you need to pursue your college dreams. Visit the Student Loan Center on the front page of our website at www.northparkccu.org to find out more. You can even apply online!
